SUPERIOR INSTITUTE OF ENGINEERING OF PORTO, PORTUGAL

ISEP is part of the European Higher Education Area and designs its programmes according to CDIO and EUR-ACE standards. ISEP currently lectures 11 BSc and 11 MsC degrees in different fields of Engineering, plus an European Project Semester (ESP@ISEP) and several summer courses.

INFORMATICS ENGINEERING

Software Engineering is one of the fastest growing sectors in terms of employability worldwide. It is essential for businesses, public services and in our daily lives. We are living in a digital world and this is just the beginning. The integration of systems, embedded devices and mobile computing will pave the next revolution of information and communication technologies and this will increase the need for software engineers.

BSc in Informatics Engineering

3 years | 180 ECTS units

EUR-ACE International Quality Certification

ISEP BCs in Informatics Engineering trains future professionals and entrepreneurs able to stand out in the European labour market. The course stands by CDIO (www.cdio.org) international best practices to develop conception, design, implementation and operation skills for software solutions oriented to information systems and networks, web and mobile applications.

ISEP receive more than 300 internships' proposals for software engineers every year.

Career prospects

As an Informatics Engineering Graduate, you can work with Information systems architecture design and conception, Administration and management of informatics systems or centers, Design and development of systems and applications, Informatics projects management, Research and technological development.

"I choose ISEP because of its good reputation and ability to accommodate working students. However, from my experience, I must highlight the quality and availability of the teaching staff to support students."

Ivo Silva, Software Engineer (Moongose)
